

Portable Bag Sealer

This portable bag closer is designed for closing bags made of paper, cotton, PP/PE woven cloth, burlap, and other materials. It features a series motor and robust construction suitable for industrial use.

Product Overview

Industrial Portable Bag Closer

This portable bag closer is engineered for robust industrial performance, featuring a durable series motor and a compact design. It is specifically designed to efficiently seal a wide range of bag materials including paper, cotton, PP/PE woven cloth, and burlap. Ideal for high-volume environments, this machine is a reliable solution for sealing bags containing agricultural products, animal feeds, fertilizers, and other granular or powdered goods.

Technical Specifications

Model Number	GK26-1A
Motor Type	Series Motor

Compatibility

Compatible Bag Materials	Paper, Cotton, PP/PE Woven Cloth, Burlap
