

Portable Bag Stitching Machine with Automatic Thread Cutter

This portable bag stitching machine is designed for one-person operation. It features an automatic thread cutter and a lubricating device to extend the machine's lifespan.

Product Overview

Efficient Bag Closing Solution

This portable bag stitching machine is designed for single-operator use, offering a lightweight and ergonomic solution for sealing various materials including paper, cotton, jute, and woven poly. It features an integrated automatic thread cutter and a lubricating device to ensure consistent performance and extended service life. With a high sewing speed of 1250 stitches per minute, it is an ideal choice for streamlining packaging operations in agricultural and industrial settings.

Technical Specifications

Performance Highlights

1250 stitches/min

Max Sewing Speed

5.5 kg

Net Weight

6.5 mm

Max Thread Mark Length

Compatible Consumables

Component	Specification
Sewing Thread	Polyester 20/6 (2x3)
Sewing Needle	No. 25

Electrical Requirements

220V/50Hz, 110V/60Hz

Compatibility

Supported Bag Materials

- Paper
- Cotton
- PP/PE
- Burlap
- Jute
- Woven Poly

Design and Build

Machine Capabilities

Automatic Thread Cutter • Lubricating Device • Single Needle Chain Stitch 101

Dimensions (L x W x H)

235 x 245 x 295 mm
