

Portable Bag Stitching Machine

This portable bag closer is designed for closing bags made of paper, burlap, plastic, cotton, PP woven cloth and other materials. It features a single thread chain stitch, automatic thread chain cutting, and a lubrication system.

Overview

Portable Bag Stitching Machine

This portable bag closer is a versatile solution designed for efficiently sealing bags made from diverse materials including paper, burlap, plastic, cotton, and PP woven cloth. Engineered for reliability, it features a single-thread chain stitch mechanism and an integrated automatic thread chain cutting system. With its built-in lubrication system, this machine is well-suited for demanding environments across the agriculture, food processing, and chemical industries.

Technical Specifications

Model	GK26-1A
Stitch Type	Single thread chain stitch
Key Features	Automatic thread cutting, Lubrication system, Portable design

Compatibility

Compatible Bag Materials

- Paper
- Burlap
- Plastic
- Cotton
- PP woven cloth

Suitable Industries

Agriculture • Food Processing • Chemical
