

Portable Bluetooth Speaker with Rechargeable Battery

This portable Bluetooth speaker is equipped with a rechargeable battery. It features a rugged design with a protective frame, digital display, and multiple connectivity options.

Overview

Portable Bluetooth Speaker with Integrated Lighting

This portable Bluetooth speaker is engineered for versatility, offering a robust audio solution for both indoor and outdoor environments. Featuring a 6.5-inch driver and a 5W RMS output, it delivers clear sound in a compact, durable plastic housing. With built-in LED lighting and a digital display, it combines functionality with a modern aesthetic, making it an ideal choice for various retail or promotional applications.
