Portable Butane Blow Torch with Adjustable Flame

This portable butane blow torch is designed for various applications requiring a high-intensity flame. It features adjustable flame control and a durable construction with a brass nozzle and ergonomic handle.

Product Overview

Professional Portable Heating Torch

This portable butane blow torch is designed for versatility and ease of use, making it an essential tool for both DIY enthusiasts and professional applications. Featuring a durable metal body construction with a brass burner and valve, it ensures reliable performance for tasks ranging from simple welding and household repairs to weeding. Its ergonomic design and adjustable flame control provide the precision needed for consistent results.

Technical Specifications

Maximum Welding Temperature

1450 °C
Max Temperature

Ignition System
Auto-Ignition

Operating Temperature Range	-30°C to 60°C

Construction & Materials

Material Composition

- Metal body
- PP (Polypropylene) handle
- Brass burner
- Brass valve

Usage & Applications

Recommended Applications	Welding, Household Repairs, Weeding, Soldering, Brazing, Heat Shrinking
