Overview

Versatile Portable Cooling Solution

This portable car refrigerator is designed for efficient temperature control on the go, making it an ideal companion for road trips, camping, and outdoor activities. It features dual-mode operation for both cooling and heating, ensuring your food and beverages are kept at the perfect temperature. With its compact design and compatibility with both AC and DC power sources, it provides reliable performance in various travel environments.

Technical Specifications

Item Number	JGA-05
Voltage Input	AC220V / DC12V
Climate Class	SN
Electrical Protection Class	II

Performance Metrics

Performance Overview

72 W Cooling Power	65 W Heating Power
------------------------------	------------------------------

Operating Current

Mode	Current (AC)	Current (DC)
Cooling	6A	0.33A
Heating	5.5A	0.3A

Features

Operation Modes

Rapid Cooling, Common Cooling, Heating
