Product Overview

Clear Visibility in Cold Weather

This portable car window defogger is designed to quickly and efficiently clear fog and frost from your vehicle's windshield, ensuring optimal visibility and driving safety. Featuring a compact and durable ABS plastic design with a rotating base, it allows for adjustable airflow direction exactly where you need it. Powered by a standard 12V cigarette lighter plug, this unit offers convenient operation in most vehicles, making it an essential tool for maintaining clear visibility during cold weather conditions.
