

# Portable Cement Mixer with Tilting Drum

This portable cement mixer features a robust steel frame and a durable mixing drum. It is ideal for small to medium-sized construction projects, concrete mixing, and mortar preparation.

## Overview

### Versatile Portable Mixing Solution

This 3-1/2 cubic ft. capacity portable cement mixer is engineered for efficiency in small-scale construction and DIY projects. It features a powerful belt-driven motor and a rugged steel frame, making it ideal for tasks like fence pole foundations and curb repairs. The combination of a large drum opening and integrated wheels ensures both high performance and easy maneuverability on the job site.

## Technical Performance

### Key Performance Metrics

**3.5 cu ft**  
Drum Capacity

**0.25 Hp**  
Motor Power

### Drive System

Belt driven

## Construction & Design

### Drum Features

- Tilting drum mechanism
- Large opening for efficient loading
- High-torque mixing capability

### Frame Material

Rugged steel construction

## Mobility

### Wheel Specifications

8" solid rubber wheels

### Maneuverability

Portable, Pneumatic-style movement, Smooth transport

## Applications

### Recommended Applications

- Fence pole foundations
- Curb repair
- Mortar preparation
- Small to medium construction projects
