

Portable Clothes Drying Unit with Fabric Cover

This clothes dryer is a portable and convenient solution for drying clothes. It's designed to efficiently dry clothes while taking up minimal space.

Overview

Efficient Portable Drying Solution

This portable clothes drying unit offers a convenient and space-saving way to dry laundry efficiently. Featuring a 900W heating system and a constant 68 °C temperature, it ensures gentle yet effective drying for various fabric types. Designed with a high-strength oxford cloth cover and a foldable aluminum frame, it is both durable and easy to store when not in use.
