

Portable Concrete Mixer

This portable concrete mixer is designed for small to medium-sized construction projects. It features a rotating drum, tilting mechanism, robust frame, and electric motor for efficient and consistent mixing.

Overview

Portable Concrete Mixer

This portable concrete mixer is an essential tool for small to medium-sized construction projects, designed to provide consistent and thorough mixing of concrete, mortar, and other materials. Featuring a 100L capacity and a 350W electric motor, it balances power and portability for efficient site use. The unit includes a 360-degree swiveling drum for easy unloading, a durable cast iron ring gear, and a protective cover, ensuring reliability and ease of operation.

Technical Specifications

Drum Capacity	100 L
Motor Power	350 W
Drum Rotation Speed	30 rpm
Drum Opening	280 mm

Construction & Design

Drum Thickness

1 mm Upper Drum	1.5 mm Bottom Drum
---------------------------	------------------------------

Finish	Powder coating
Ring Gear Material	Cast iron

Logistics & Dimensions

Weight

28 kg Net Weight	30 kg Gross Weight
----------------------------	------------------------------

Overall Dimensions	1150 x 600 x 1100 mm
20ft Container Quantity	175 pcs

Features

Key Features

- 360-degree swiveling for complete unloading
- Round handle for easy maneuverability
- Plastic ring gear protection cover
- Poly motor cover for enhanced protection
