

Portable Concrete Mixer

This portable concrete mixer is designed for small to medium-sized construction projects. It features a robust steel frame, a rotating drum for efficient mixing, and a powerful motor for reliable performance.

Product Overview

Portable Concrete Mixer (JH90)

The JH90 is a versatile, portable concrete mixer engineered for efficiency in small to medium-sized construction projects. Built with a robust steel frame, it ensures durability and stability during operation. Its powerful motor and rotating drum design provide consistent mixing performance for concrete, mortar, and other construction materials.

Technical Specifications

Model Number	JH90
Construction Materials	Steel Frame, Metal Drum

Features & Usability

Mobility

- Integrated wheels for easy maneuverability
- Tilting mechanism for controlled pouring

Suitable Applications

Concrete • Mortar • General Construction
