

Portable Concrete Mixer

This portable concrete mixer is a robust and efficient machine designed for small to medium-scale construction projects. Its compact design and integrated wheels allow for easy transport and maneuverability on job sites.

Overview

Professional Mixing Performance

The JH35H Portable Concrete Mixer is a robust and efficient machine engineered for small to medium-scale construction projects. Featuring a durable steel frame and a high-impact polyethylene drum, this mixer is built to withstand rigorous job site conditions. Its compact design and integrated wheels ensure exceptional maneuverability, while the reliable electric motor delivers consistent results for concrete, mortar, and other construction materials.

Key Features

Key Features

- Durable steel frame construction
- High-impact polyethylene drum
- Integrated wheels for easy transport
- Precise tilting mechanism for controlled pouring
- Reliable electric motor

Model Identifier	JH35H
------------------	-------

Applications

Material Compatibility

Concrete • Mortar

Suitable For	Professional Contractors, DIY Enthusiasts, Small Construction Projects, Medium Construction Projects
