

Portable Concrete Mixer

This portable concrete mixer is designed for on-site concrete mixing. It features a rotating drum, motor, and sturdy frame with wheels for easy transportation.

Product Overview

Professional Concrete Mixing Solution

This 300L portable concrete mixer is engineered for durability and ease of use on construction sites. It features a robust cast iron ring gear protected by a plastic cover and a versatile 360-degree swiveling drum that ensures complete unloading. Equipped with a pedal-operated discharge mechanism and a round handle, this mixer is designed to optimize workflow and efficiency for professional contractors.
