

Portable Concrete Mixer with Tilting Drum

This portable concrete mixer is designed for efficient mixing of cement, sand, and gravel. It features a rotating drum and a manual tilting mechanism for controlled discharge.

Product Overview

Professional Portable Mixing Solution

This portable concrete mixer is engineered for efficiency and reliability on construction sites. Featuring a specialized rotating drum design, it ensures consistent blending of cement, sand, and gravel for high-quality mixtures. The unit is designed with a manual tilting mechanism to provide operators with precise control over material discharge, minimizing waste and improving workflow.

Technical Specifications

Model Number	CM300
Applications	Cement, Sand, Gravel

Features

Key Features

- Manual tilting mechanism for controlled discharge
- Wheeled frame for site maneuverability
- Robust motor system
- Heavy-duty drum construction
