

# Portable Convection Heater

This portable convection heater provides efficient and safe space heating. It distributes warmth evenly and features adjustable thermostat control and overheat protection.

## Product Overview

### Efficient Ceramic Heating Solution

This ceramic aluminium convection heater provides reliable and consistent warmth, making it an ideal choice for both home and office environments. Featuring a sleek, modern design and advanced electronic controls, it offers precise temperature management through an adjustable thermostat and multiple operating modes. With built-in safety features like overheat protection and a child lock, this unit ensures a safe and comfortable heating experience.

## Technical Specifications

### Power Output

**1000 W**

Power

### Protection Rating

IPX4 • Class II

### Electrical Requirements

230V~50Hz

## Features & Control

### Operating Modes

- Comfort
- Economic
- Anti-freeze
- Stand-by

### Programming

- 3 Pre-installed programs (P1, P2, P3)
- Individual 7-day heating programmer
- 6-order pilot wire control

### Smart Functionality

LCD Display, Child Lock, Window Detector

## Safety & Construction

### Safety Features

- Overheat safety protection

<b>Material</b>	Ceramic heating element with aluminium body
<b>Mounting</b>	Wall mounted
