

Portable Cooling Box with Handle

This portable cooling box is designed for maintaining temperature-sensitive items. It is constructed with a durable plastic exterior, featuring a secure lid and a handle for easy transport.

Product Overview

High-Quality Portable Cooling Solution

This portable cooling box is designed for maintaining temperature-sensitive items such as medical supplies, food, or beverages. Constructed with a durable plastic exterior and a secure lid, it features a convenient handle for easy transport during outdoor activities or professional logistics. The textured surface provides an enhanced grip, ensuring reliability and safety while on the move.

Key Features

25 yrs

Years of Mold Experience

110 sets
