

# Portable DAB/DAB+/FM Radio Receiver with Digital Display

This portable radio receives DAB/DAB+ and FM signals. It features a telescopic antenna, a digital display, preset tuning, AUX input, and a rechargeable battery.

## Overview

### Versatile Digital Radio Receiver

This portable radio receiver offers a comprehensive audio experience by combining traditional FM reception with modern DAB/DAB+ digital broadcasting. Designed for flexibility, it includes integrated support for MP3 playback via USB and TF card slots, as well as Bluetooth connectivity for wireless streaming. With its compact form factor and rechargeable battery, it serves as an ideal solution for both indoor and outdoor listening.
