

Portable Dehumidifier with Digital Display

This portable dehumidifier is designed for household use. It features a digital display, top-mounted control panel, a removable water tank and rolling casters for easy mobility, removing excess moisture from the air to prevent mold and mildew.

Overview

Intelligent Moisture Control

This new generation intelligent dehumidifier features advanced digital controls and multiple operating modes to optimize indoor air quality. Designed for versatility, it includes automated humidity regulation, a washable dustproof filter, and an integrated anion function for cleaner air. With its portable design and external drainage options, it offers a practical solution for maintaining a comfortable, mold-free environment in residential spaces.

Performance

Dehumidifying Capacity

10 L/d

Capacity (30°C/80% RH)

Power Consumption	230 W
Noise Level	42 dBA
Wind Capacity	120~160 cfm

Features

Safety & Protection

PSS Platinum Safety System • Full Water Indicator • Auto Defrost • Grounding Protection

Convenience Features

- Digital Display
- Timer (1-24 Hours)
- Washable PP Dustproof Filter
- External Drain Connection
- Rolling Wheels for Mobility

Operating Modes	Wisdom Dehumidifying, Normal Dehumidifying, Powerful Dehumidifying, Air Clean
