

Portable Diesel Generator

This portable diesel generator is designed for reliable power supply. It features a robust frame for protection and easy transportation.

Overview

Reliable Portable Power Solution

The DY4800L is a high-performance portable diesel generator engineered for consistent power delivery in demanding environments. Built with a robust protective frame for enhanced durability and ease of transport, this unit is an ideal choice for backup power or remote site operations. It features an intuitive control panel for real-time monitoring of voltage and current, ensuring operational safety and efficiency.

Technical Specifications

Model	DY4800L
Engine Source	YAMAHA
Certifications	CE

Design & Features

Control Panel Features

- Voltage display
- Current monitoring
- Standard electrical outlets

Frame Construction	Robust protective frame for enhanced durability
