

Portable Diesel Generator for Backup Power

This portable diesel generator is designed to supply backup power during outages and for use in remote locations. It features a robust engine, compact design, and user-friendly controls.

Overview

Reliable Backup Power Solution

This portable diesel generator is engineered to provide dependable backup power during outages or in remote, off-grid locations. Featuring a robust engine architecture and a compact, portable design, it is built to withstand demanding environments. Its user-friendly control interface makes it an ideal solution for construction sites, emergency support, and outdoor activities requiring consistent energy supply.

Technical Specifications

Fuel Type

Diesel

Model Number

MH950

Key Features

Suitable Applications

- Construction Sites
- Emergency Power Supply
- Remote Locations
- Camping

Design Highlights

Portable, Compact, Robust Engine, User-Friendly Controls
