

Portable Diesel Generator Set, 1.8 kW Rated Output Power, 50 Hz

This portable diesel generator set provides a reliable power supply for various applications. It features a robust diesel engine ensuring efficient operation and long service life.

Overview

Reliable Portable Power Solution

This portable diesel generator set is engineered to provide a dependable power supply for diverse professional applications, including agriculture, construction, and emergency backup. Featuring a robust diesel engine, it offers high efficiency and a long service life. Designed for versatility, this unit supports multiple output voltages to meet various site requirements.

Technical Specifications

Rated Frequency	50 Hz
Rated Output Power	1.8 kW
Max Output Power	2 kW
Rated Voltage Options	110V, 120V, 220V, 230V, 240V
Rotation Speed	3000 RPM
Fuel Consumption	< 362 g/kw-h

Model Variants

Available Models

Model	Engine Model
ZSH2500L	ZC170FA
ZSH2500LE	ZC170FAE
