

Portable Diesel Power Generator

This portable diesel generator features a gasoline engine and an alternator for power generation. It is equipped with a protective frame and a control panel with outlets, suitable for commercial and residential use.

Overview

Reliable Power for Commercial and Residential Use

This portable diesel generator is engineered for versatility and dependable performance in demanding environments. Featuring a rugged protective frame and an advanced alternator system, it ensures consistent power delivery for both commercial and residential applications. Equipped with a new Automatic Voltage Regulator (AVR) and a robust engine design, this unit provides a stable power source wherever you need it most.

Technical Specifications

Model Identifier	HS2.0GF
Engine Type	Diesel
AVR Equipped	Yes
Series Code	IC65

Features

Design Highlights

Protective Frame • Portable • AC Generator

Suitable Applications	Commercial, Residential, Portable Use
