

# Portable Digital Alcohol Tester

This is a portable handheld alcohol tester for personal use. It features a digital display with a smiley face indicator and one-button operation.

## Overview

### Portable Digital Alcohol Tester

The LD007-AD5 is a compact, portable alcohol tester designed for quick and reliable BAC monitoring. Featuring an advanced semiconductor oxide sensor, it provides rapid response times and easy one-key operation. With added convenience features like a built-in torch and keychain attachment, this device is an ideal tool for personal safety and on-the-go testing.

## Technical Specifications

Sensor Technology	Advanced semiconductor oxide alcohol sensor
Detection Range	0.00%-0.1% BAC (0.00-0.50mg/L BRAC)
Accuracy	0.01% BAC (0.05mg/L BRAC)

## Performance Metrics

### Response Performance

<b>30 s</b> Warm-up Time	<b>5 s</b> Response Time
-----------------------------	-----------------------------

## Power & Operation

Power Input	2 x 1.5V AAA alkaline batteries
Auto Power Off	1 min

## Physical Attributes

Dimensions	100 x 45 x 20 mm
------------	------------------

## Features

Key Features	Keychain, Torch Function, Low Battery Indication, One-Key Operation
