

Portable Earth Auger with 51.7ml Engine

This earth auger is equipped with a 1E44F-2A engine and a 51.7ml displacement, providing a power output of 1.3kW at 7000rpm. It is suitable for drilling in varied soil types and weighs 10kg for convenient handling.

Overview

Professional-Grade Portable Earth Auger

This portable ground drill features an ergonomic design paired with a robust 51.7ml engine, engineered to deliver reliable power for demanding agricultural and landscaping tasks. Designed for versatility, it supports a wide range of drill bit sizes from 80mm to 250mm, making it suitable for various hole-digging and tree-planting applications. Its lightweight construction ensures ease of handling for operators in the field.

Technical Specifications

Power Output

1.3 kW

Power

7000 rpm

Rated Speed

Engine Model	1E44F-2A
Displacement	51.7 ml
Gross Weight	10 kg

Usage & Compatibility

Compatible Drill Bit Sizes

- 80mm
- 100mm
- 150mm
- 200mm
- 250mm

Recommended Applications	Tree Planting, Hole Digging, Agricultural, Landscaping
