

Portable Electric Concrete Mixer with Steel Frame

This portable electric cement mixer is suitable for both DIY and professional use. Its durable, all-steel frame ensures sturdiness and easy portability, while large wheels facilitate convenient movement.

Product Overview

Versatile Portable Concrete Mixer

This portable electric cement mixer is designed for both professional construction sites and do-it-yourself home projects. Built with a durable all-steel frame and a reinforced drum rim, it provides a sturdy and long-lasting solution for mixing concrete and mortar. The inclusion of large wheels and a user-friendly tilting mechanism ensures easy maneuverability and efficient material pouring on any job site.

Technical Performance

Performance Highlights

135 Liters

Drum Capacity

550 W

Motor Power

385 mm

Drum Mouth

Physical Specifications

Overall Dimensions	118 x 94 x 130 cm
Total Weight	52 kg
Model Number	QTP4110

Design & Mobility

The QTP4110 features a reinforced steel drum and large replaceable wheels for enhanced job site mobility.

Mobility Features

- Large wheels for easy movement
- Replaceable wheel design
- Portable frame architecture

Frame Construction

All-steel durable frame

Safety & Operation

Safety and Control

- Safety on/off switch
- Fully enclosed motor housing
- Secure drum locking mechanism
- User-friendly tilting mechanism

Applications

Concrete, Mortar, DIY Projects, Professional Construction
