

Portable Electric Fan with Integrated Light

This portable electric fan provides personal cooling and illumination. It features multi-speed fan control, adjustable light intensity, and a durable plastic housing.

Product Overview

Versatile Cooling and Illumination Solution

The TK-2309 is a multifunctional portable electric fan designed for both indoor cooling and emergency lighting. It features a 12-inch oscillating fan powered by a high-efficiency DC motor. Equipped with integrated fluorescent tubes and a blinker searchlight, it ensures reliability during power outages with its automatic emergency light-up function.

Technical Specifications

Fan Diameter	12 inch
Motor Type	DC Motor

Power and Battery

Battery Details	Rechargeable RB640CS (6V 4.5AH)
Operation Modes	AC Operation, DC Operation

Lighting Features

Lighting Components

- 2x 6W Fluorescent Tubes
- Search Light
- Blinker

Emergency Features	Yes
