

Portable Electric Space Heater

This is a portable electric space heater suitable for indoor use. It features two ventilation grilles, a sensor, and a control panel for adjusting settings.

Product Overview

Efficient Portable Heating Solution

This portable electric space heater is engineered for versatile indoor climate control. Designed with a compact, rectangular form factor and a stable base, it integrates seamlessly into various professional and personal environments. The unit features dual ventilation grilles to ensure efficient heat distribution, paired with intuitive top-mounted controls and intelligent sensor technology for reliable operation.
