

Portable Electric Stone Cutter

This portable electric stone cutter is designed for precise cutting of stone materials like marble, granite, and tile. It features a powerful motor, adjustable cutting depth, and a water cooling system for dust suppression and blade longevity.

Overview

Professional Stone Cutting Precision

This portable electric stone cutter is engineered for high-performance cutting of marble, granite, tile, and various stone materials. It features a robust motor designed for consistent efficiency, coupled with an integrated water cooling system that ensures effective dust suppression and extends blade lifespan. Ideally suited for professional tile installers and stone fabricators, this tool offers adjustable cutting depth to meet precise project requirements.

Key Features

Core Features

Portable Design • Water Cooling System • Adjustable Cutting Depth • High-Power Motor

Suitable Materials

Marble, Granite, Tile, Stone

Technical Specifications

Target User Base

- Professional Tile Installers
- Stone Fabricators
- Construction Workers
