

Portable Electronic Measuring Instrument

This is a portable electronic instrument used for testing and calibration. It comes in a rugged case with a handle for easy transport and secure closure.

Overview

Professional Portable Testing Solution

This portable electronic measuring instrument is designed for reliable field testing and calibration applications. Housed in a rugged, durable case with a convenient carrying handle and secure latching mechanism, it is built to withstand the demands of on-site operations. It serves as a robust solution for technical professionals requiring precise codec testing capabilities in various environments.

Technical Specifications

Model Number	MCJC-2
Primary Function	Codec Tester

Design & Build

Design Type	Portable • Field-Ready
Portability Features	Rugged Case, Integrated Handle, Secure Latching
