Product Overview

Reliable Emergency Power

This portable emergency jump starter is designed for quick and safe vehicle recovery, featuring a high-capacity lithium-ion battery capable of delivering substantial cranking power. It is compatible with both gasoline and diesel engines, making it suitable for a variety of vehicles including cars, trucks, and SUVs. The device integrates advanced safety protections and versatile utility features, ensuring it remains an essential tool for roadside assistance and emergency preparedness.

Technical Specifications

USB Output

- 5V / 2A
- 5V / 2.1A

Voltage Support

12V, 24V

Input Voltage

15 V

Safety & Features

Safety Protections

Reverse Polarity Protection • Short Circuit Protection • Over-discharge Protection • Over-current Protection • Over-voltage Protection • Over-temperature Protection

Integrated Features

- LED Flashlight
- LCD Status Screen
- Power Bank Functionality

Compatibility

Engine Compatibility	Gasoline, Diesel
Vehicle Types	Cars, Trucks, SUVs
