

# Portable Evaporative Air Cooler

This portable evaporative air cooler provides efficient and cost-effective cooling for personal spaces. Featuring adjustable fan speeds, a refillable water tank, and a compact design, it's ideal for home or office use.

## ADDITIONAL IMAGES

## Overview

### Efficient Evaporative Cooling Technology

This portable evaporative air cooler utilizes the natural process of water evaporation to absorb heat and provide refreshing, cooled air. By drawing air through a moistened fiber curtain, the system not only cools the environment but also filters out dust and particles, ensuring a continuous circulation of fresh air. Designed for versatility and ease of use, it is an eco-friendly and energy-efficient solution for cooling spaces between 25 and 40 square meters.

## Performance Metrics

### Key Performance Metrics

**35 L**

Tank Capacity

**9.5 m/s**

Max Wind Speed

**150 W**

Power Consumption

## Technical Specifications

### Electrical Requirements

- 220V-240V~50Hz
- 110V~60Hz

### Physical Dimensions & Weight

Metric	Value
Fan Blade Diameter	320mm
Gross Weight	13.9 kg
Net Weight	11.9 kg

## Logistics

Application Area	40 m2
Loading Quantity (40HQ)	356 pcs

## Features

Key Features	Portable, Eco-friendly, Dust Filtering, Adjustable Fan Speed, Caster Wheels
