

Portable Evaporative Air Cooler

This air cooler consumes less energy than an air conditioner and can also be used as a fan. Its compact design and four wheels allow for easy movement and space-saving storage.

Product Overview

Efficient Cooling Solution

The SK-LLV8 Portable Evaporative Air Cooler is designed to deliver efficient and reliable cooling for both home and office environments. Featuring a sleek vertical design with an optimized front grille, this unit ensures consistent air circulation throughout your space. It is equipped with a convenient water tank and a clear level indicator, making operation simple and user-friendly.
