

Portable Evaporative Air Cooler for Commercial and Home Use

This portable evaporative air cooler is designed for both household and commercial use, making it suitable for environments such as outdoors, offices, restaurants, and stores. It provides efficient cooling through water evaporation, offering an energy-saving alternative to traditional air conditioning.

Product Overview

Versatile Cooling Solution

This portable evaporative air cooler is engineered for flexibility, serving both household and commercial environments such as offices, restaurants, and retail stores. By utilizing water evaporation technology, it offers an energy-efficient alternative to traditional air conditioning systems. The unit features a durable build, adjustable louvers for precise airflow control, and is mounted on casters to ensure easy mobility across different spaces.

Key Features

Suitable Environments	Household, Commercial, Outdoor, Office, Restaurant, Retail Store
Mobility	Yes
Airflow Adjustment	Adjustable louvers for directional airflow
Control Interface	User-friendly control panel

Technical Specifications

Efficiency Status	Energy Saving
Cooling Technology	Water Evaporation
