

Portable Evaporative Air Cooler for Commercial and Home Use

This portable evaporative air cooler is designed for both household and commercial use, making it suitable for various environments. It provides efficient cooling through water evaporation, offering an energy-saving alternative to traditional air conditioning.

Product Overview

Versatile Cooling Solution

This portable evaporative air cooler is designed for both household and commercial applications, making it an ideal choice for offices, restaurants, retail stores, and outdoor spaces. It utilizes water evaporation technology to provide efficient cooling, serving as an energy-saving alternative to traditional air conditioning systems. Engineered for user convenience, the unit features simple operation, easy maintenance, and high mobility.

Key Features

Operational Features

- Adjustable fan speeds
- Water level indicator
- Easy-to-move casters

Key Benefits

Energy Saving, Portable, Easy Maintenance, Simple Operation

Applications

Suitable Environments

Household • Commercial • Outdoor • Office • Restaurant • Store
