

# Portable Evaporative Air Cooler for Home and Commercial Use

This portable evaporative air cooler is designed for both household and commercial use. It provides efficient cooling through water evaporation, offering an energy-saving alternative to traditional air conditioning.

## Product Overview

### Efficient Cooling Solution

This portable evaporative air cooler is engineered for versatile application in both household and commercial settings, including offices, restaurants, and retail stores. By utilizing water evaporation, it provides an energy-efficient alternative to traditional air conditioning systems. The unit is designed for mobility and ease of use, making it an ideal choice for maintaining a comfortable environment in small to medium-sized spaces.

## Key Features

### Operational Features

- Adjustable fan speeds
- User-friendly control panel
- Large capacity water tank
- Portable design with caster wheels

### Suitable Environments

Household, Commercial, Office, Restaurant, Retail Store, Outdoor

## Performance

### Efficiency Status

Energy Saving

### Cooling Technology

Water Evaporation
