

Portable Evaporative Air Cooler for Home and Commercial Use

This portable evaporative air cooler is designed for both household and commercial use. It provides efficient cooling through water evaporation, offering an energy-saving alternative to traditional air conditioning.

Product Overview

Efficient Cooling Solution

This portable evaporative air cooler is engineered for versatile use across both residential and commercial settings, including offices, restaurants, and outdoor spaces. By utilizing water evaporation technology, it provides a highly efficient and energy-saving alternative to traditional air conditioning systems. The unit is designed for convenience, featuring a user-friendly digital control panel and robust caster wheels for effortless mobility.

Key Features

Ideal For	Household, Commercial, Outdoor, Office, Restaurant, Retail Store
Mobility	Yes

Technical Specifications

Construction Durable • Portable • Compact	
Control System	Digital display control panel with multi-function buttons
Water Tank	Equipped with integrated water level indicator
