

Portable Evaporative Air Cooler for Home and Commercial Use

This portable evaporative air cooler is designed for both household and commercial use. It provides cooling through evaporation and features a multi-speed fan, adjustable louvers, and a water tank for continuous cooling.

Product Overview

Versatile Cooling Solution

This portable evaporative air cooler is engineered for both residential and commercial environments, making it an ideal choice for offices, restaurants, retail stores, and outdoor settings. Utilizing advanced evaporative cooling technology, the unit offers an energy-efficient alternative to traditional air conditioning. Its robust design includes intuitive digital controls, adjustable airflow, and mobility features to ensure consistent performance across various spaces.

Key Features

Usability Features

- Digital display control panel
- Multi-speed fan settings
- Adjustable airflow louvers
- Integrated water tank
- Caster wheels for mobility

Cooling Technology
