

Portable Evaporative Air Cooler for Household and Commercial Use

This portable evaporative air cooler is designed for both household and commercial use. It provides efficient cooling through water evaporation, offering an energy-saving alternative to traditional air conditioning.

Product Overview

Efficient Cooling Solution

This portable evaporative air cooler is designed for versatility, making it suitable for both household and commercial settings, including outdoor areas, offices, restaurants, and retail stores. It utilizes water evaporation technology to provide an energy-efficient alternative to traditional air conditioning systems. Built for durability and convenience, the unit includes caster wheels for easy mobility and a large water tank designed for extended operation.

Key Features

Design Highlights

- Durable construction
- Caster wheels for easy movement
- User-friendly control panel
- Large water tank capacity

Ideal For	Household, Commercial, Outdoor, Office, Restaurant, Retail Store
Mobility	Yes
Cooling Method	Water Evaporation
