

Portable Evaporative Air Cooler for Household and Commercial Use

This portable evaporative air cooler is designed for both household and commercial use. It utilizes evaporative cooling technology to reduce air temperature, offering an energy-efficient alternative to traditional air conditioning.

Product Overview

Versatile Cooling Solution

This portable evaporative air cooler is engineered for flexibility, serving both household and commercial environments effectively. Utilizing advanced evaporative cooling technology, it provides a highly energy-efficient alternative to traditional air conditioning systems. Its mobile design ensures it can be easily relocated to provide immediate comfort in outdoor spaces, offices, restaurants, or retail stores.

Key Features

Suitable Environments	Household, Commercial, Outdoor, Office, Restaurant, Store
Cooling Technology	Evaporative Cooling

Design

Portability	Yes
