

Portable Evaporative Air Cooler with 11L Water Tank

This portable air cooler provides localized cooling through evaporation. It has an 11L water tank and adjustable louvers for directing airflow.

Product Overview

Portable Evaporative Cooling Solution

This portable evaporative air cooler is designed to provide efficient, localized cooling for indoor environments such as offices or homes. Equipped with an 11-liter water tank, it utilizes evaporative technology to lower air temperature effectively. The unit features convenient remote control operation, adjustable airflow settings, and integrated air purification functions for improved comfort.
