Overview

High-Performance Portable Cooling

This portable evaporative air cooler delivers a powerful 8000 m³/h airflow, making it ideal for cooling spaces between 55-60m². Designed for efficiency and convenience, it features a large 60L water tank and a pure copper motor for reliable, long-term performance. Its unique space-saving design allows the water tank to be inverted during shipping, significantly reducing logistics costs for B2B buyers.
