

Portable Evaporative Air Cooler with Adjustable Fan Speed

This portable evaporative air cooler is designed for personal and localized cooling. It features a water tank for evaporative cooling and a control panel for adjusting fan speed and cooling settings.

Overview

Efficient Cooling Solution

This portable evaporative air cooler utilizes advanced water-cooling technology to provide efficient cooling and humidification without the use of fluorine pollutants. Designed for versatility, it features a cross-flow wind system for large air delivery and automatic 90-degree oscillation to ensure even airflow distribution. With convenient remote control operation and a 7-hour timer, it offers a user-friendly solution for maintaining comfortable indoor environments.

Performance & Features

Control Options

- Remote Control
- Top Control Panel

Cooling Technology	Water-cooling, Evaporative, Humidifying, Dust Collection
Automatic Oscillation	90 degrees
Timer Duration	7 hours

Design & Mobility

Key Design Features

Portable • Cross Flow Wind Way • Castor Wheels
