

Portable Evaporative Air Cooler with Adjustable Louvers

This air cooler consumes less energy than an air conditioner and can also be used as a fan. Its compact design and four wheels allow for easy movement and space-saving storage.

Product Overview

Efficient Localized Cooling Solution

The SK-EF-2101 is a versatile tower-style evaporative air cooler designed to provide efficient, localized cooling for various indoor environments. Featuring adjustable louvers for precise airflow direction and a user-friendly control panel, this unit offers customizable comfort with multiple fan speeds. Its portable design, complete with integrated caster wheels, makes it an ideal cooling solution for offices, homes, and small commercial spaces.
