Overview

Efficient Cooling and Air Quality

This portable evaporative air cooler offers a versatile solution for cooling, humidifying, and purifying indoor air. Featuring a honeycomb cooling pad and water cycling system, it provides a strong air volume while maintaining low noise levels. With adjustable speed settings, a 12-hour timer, and an ionizer for air purification, it is designed to create a comfortable and healthy environment.

Performance & Features

Speed Settings	3 levels
Timer Duration	12 hours
Automatic Swing	120 degrees
Key Features	Ionizer, Honeycomb Cooling Pad, Water Cycling, LED Display, Remote Control, Low Noise
