Product Overview

Efficient Cooling Solution

The HS-35B is a high-performance portable evaporative air cooler designed to provide effective cooling for small to medium-sized spaces. With a powerful 7800m³/h air flow and a 45L water tank, it ensures consistent cooling performance for areas ranging from 25 to 40 square meters. Its mobile design, featuring caster wheels, makes it an ideal solution for homes, offices, or workshops requiring flexible climate control.
