

Portable Evaporative Air Cooler with Digital Display

This portable evaporative air cooler is designed for personal cooling. It features a digital display and utilizes evaporative cooling technology to cool and humidify the surrounding environment.

Product Overview

Efficient Personal Cooling Solution

The Portable Evaporative Air Cooler is a sophisticated unit designed for effective personal cooling in small to medium-sized indoor environments. By utilizing advanced evaporative technology, it draws air through a wet filter to lower temperatures while simultaneously humidifying the room. This compact device offers an energy-efficient and portable alternative to traditional air conditioning systems, providing user-friendly controls via a modern digital display.

Technical Specifications

Cooling Technology	Evaporative Cooling
Usage Environment	Indoor, Personal Cooling, Small to Medium Rooms
Control System	Digital Display

Key Features

Design

Portable • Compact • Energy-Efficient

Fan Speed Settings	Yes
