

Portable Evaporative Air Cooler with Digital Display

This portable air cooler uses water evaporation to provide a cooling effect, consuming less energy than a traditional air conditioner. Its compact design and casters allow for easy movement between rooms, making it suitable for bedrooms, living rooms, and offices.

Product Overview

Efficient Portable Cooling Solution

This portable evaporative air cooler is designed to provide effective, localized cooling for indoor environments. Featuring an intuitive digital display and control panel, it allows for precise adjustment of cooling settings. The unit is built for convenience, with a compact design and integrated casters that ensure easy mobility across various workspaces.

Technical Specifications

Cooling Technology	Evaporative Cooling
Mobility Features	Integrated Casters, Portable Design
Control Interface	Digital Display with Multi-button Control Panel

Design Features

Design Highlights

- Multi-level airflow structure
- Dual air outlet grilles
- Compact indoor-friendly footprint
- Bottom-mounted water tank
