

Portable Evaporative Air Cooler with Optional Mosquito Trap

This portable air cooler uses evaporation for cooling, consuming less energy than an air conditioner. It features a compact design with wheels for easy movement and an optional mosquito trap function.

Product Overview

Efficient Cooling Solution

This portable evaporative air cooler is designed to provide effective cooling relief across various environments. Its compact design, enhanced by caster wheels, ensures effortless mobility between rooms for versatile use. The unit features a user-friendly interface with top-mounted controls and a clear water level indicator for easy maintenance and optimal performance.
