

# Portable Evaporative Air Cooler with Remote Control

This portable evaporative air cooler provides natural, energy-efficient cooling without a compressor. It features multiple modes, a timer, remote control, and a 9-liter water tank.

## ADDITIONAL IMAGES

## Overview

### Natural and Efficient Cooling

This portable evaporative air cooler provides a natural, energy-efficient cooling solution without the need for a compressor. It utilizes honeycomb cooling media and a powerful 1440 m<sup>3</sup>/hr airflow to deliver a steady, refreshing breeze. Designed for versatility, it includes multiple operating modes, a programmable timer, and convenient remote control operation.

## Performance & Technical

### Airflow Capacity

**1440 m<sup>3</sup>/hr**  
Airflow

### Water Tank Capacity

9 L

### Timer Range

1 to 15 hours

### Safety & Protection

Water Pump Protection Sensor, Low Water Alarm

## Modes & Settings

### Operating Modes

Mode	Speed Settings
Normal	High, Medium, Low
Natural	High, Medium, Low
Sleep	High, Medium, Low

## Design & Portability

### Portability

- Lightweight construction
- Integrated caster wheels
- Bottom-loading ice compartment

## Certifications

### Compliance

CE • CB • ETL
