

Portable Evaporative Cooling Fan

This portable cooling fan provides localized cooling for personal use or small spaces. It features a front grille to direct airflow and a water reservoir for evaporative cooling.

Product Overview

Portable Evaporative Cooling Solution

This portable evaporative cooling fan is designed to provide efficient, localized cooling for personal use in homes, offices, or workshops. Featuring a durable plastic construction and a compact form factor, it integrates seamlessly into small spaces while offering easy placement. The unit utilizes an evaporative cooling mechanism with a dedicated water reservoir, complete with a convenient water level indicator for hassle-free maintenance.

Design & Build
